§ 105-91. Statement of intent and purpose. District Boundaries.

Upon review and consideration of expert analysis, studies and reports, the Board of Trustees of the Village of Farmingdale (öBoardö) has determined that it is in furtherance of the health, safety and general welfare of the Village and its residents to enhance and revitalize the Village Downtown and that various changes are necessary to do so. In connection with its study of revitalizing the Downtown, the Village has developed a proposed downtown master plan: öDowntown Farmingdale 2035: A Downtown Master Planö (öDowntown Planö). The Downtown Plan identifies various existing conditions which stand in the way of a revitalization of the Downtown and calls for the implementation of various actions to encourage and facilitate the creation of such a Downtown. The Board finds that the creation of a Downtown Mixed-Use (öD-MUö) Zoning District is necessary to create and sustain a vibrant, attractive and economically flourishing Downtown. The Board finds that Transit-Oriented Development

(TOD) at the Long Island Railroad (LIRR) train station with a strong and intentional connection to Main Street, as well as an active, pedestrian-friendly Main Street, encouraging walking, bicycling and transit use, are necessary to revitalize the Downtown. The Board finds that an environment which includes a mixture of commercial and residential uses, building in proximity to the train station, and encouraging greater demand on local businesses in Downtown Farmingdale, to be conducive to the proper development of the Downtown. It is the intent of the Board to allow for graduated densities of development in three sub-areas within the zoning district boundaries, with the greatest intensity of development permitted for areas closest to the train station. It is the Board's intention to have no more than two full stories of habitable space above the ground level. The Board finds that a pedestrian-friendly commercial area, with off-street parking located to the rear of Downtown buildings and ground-floor uses on Main Street which foster pedestrian activity with restaurants, shops, and personal service establishments, providing a lively streetscape are necessary to revitalize the Downtown. The Board finds that uses that do not foster pedestrian traffic such as office and multi-family apartments should be limited to upper floors. The Board also finds that it is important to regulate the design and architectural characteristics of development so as to encourage a neighborhood identity which promotes pedestrian activity, human interactions, safety and livability. A revitalized Downtown which encourages a mix of moderate and high density development within walking distance of the LIRR train station will increase transit ridership; provide an alternative to traditional development by emphasizing mixed use, pedestrian oriented development; encourage building reuse and infill to create higher densities; reduce auto dependency and roadway congestion by locating multiple destinations and trip purposes within walking distance of one another; provide a range of housing options for people of different income levels and at different stages of life; and allow the Village to take advantage of the Village's location and the new industries relocating in area of Route 110, supporting new uses, ancillary uses and housing for advancing science and technology. The Board also finds it necessary for the revitalization of the Downtown the improvement, and creation, of additional open spaces for recreational activities. In order to effectuate the intent and purpose of this Article it is necessary for the Board to have the authority to waive or alter the provisions of this Article, in a manner consistent with this Article.

The boundaries of the D-MU Zoning District shall be as shown on the D-MU Zoning District Map which accompanies this Article. The D-MU District Map and the legends thereon are hereby declared to be part of this Article.

§ 105-92. Definitions.

§ 105-97. Off-street parking and loading in the D-MU District.

A. Minimum spaces required.

- (1) Dwelling units and multi-family dwelling units: one (1) space for each studio; one and one-half (1.5) spaces for 1 bedroom; two (2) spaces for two (2) bedrooms and one-half (0.5) additional spaces for each additional bedroom in the dwelling unit.
- (2) Retail and personal service establishments: one (1) space for each two hundred (200) square feet of gross floor area.
- (3) Restaurant, bar and grill, and similar uses: one (1) space for every three (3) seats plus one (1) additional space for every three (3) lineal feet of bar plus one (1) space for every two (2) employees or one (1) space for each two hundred (200) square feet of gross floor area, whichever is greater.
- (4) Offices, financial institutions, and studios: one (1) space for each two hundred fifty (250) square feet of gross floor area.
- (5) Church, temple, place of worship, or similar place of assembly: one (1) for each five (5) seats.
- (6) Professional school, learning center or test preparation center: five (5) per classroom or teaching station, plus one (1) for each teaching and nonteaching staff person.

- (7) Nursery school or day care center: one (1) for each five (5) seats in a main assembly room or two (2) for each classroom, plus one (1) for each two hundred fifty (250) square feet of office floor area, whichever is greater.
- (8) Funeral establishment: Ten (10) per parlor or chapel, and not less than twenty (20) in any case.
- (9) Any other use, structure or building not otherwise expressly provided for herein: one (1) per each one hundred fifty (150) square feet of floor area or as determined by the Board of Trustees upon consultation with the Superintendent of Buildings.

B. Reduction of required parking for uses near municipal parking fields.

The provisions set forth in §105-112 of this Chapter shall apply to D-MU uses that are located with five hundred (500) feet of a municipal parking field, including the potential payment of a fee as a substitute value for parking spaces waived by the Board of Trustees.

C. Loading requirements.

Off-street loading and unloading requirements may be waived by the Board of Trustees as part of the site plan approval process, where such loading is infeasible given existing parking lots that otherwise serve the subject site.

§ 105-98. Development Incentive Bonuses.

- A. The Board of Trustees shall have all those powers set forth in New York State Village Law §7-703. The Board of Trustees, following a public hearing pursuant to §105-104 of this Chapter, may, at its discretion, award incentive bonuses to applicants who provide or make provision for amenities and facilities such as open space, parks and recreational facilities, streetscape amenities, landscaping, energy efficient building techniques, a greater number of workforce or affordable housing units, road improvements, water and sewer system improvements or other specific physical, social or cultural amenities, or cash in lieu thereof, of benefit to the residents of the Village. In exchange therefore the Board of Trustees may, at its discretion, vary the required density, coverage and floor area ratios, parking requirements, building heights, required setbacks, topographical changes, open space, and permissible uses in the District provided such variance is consistent with the intent and purpose of this Article.
- B. To evaluate the adequacy of the proposed benefits to be accepted in exchange for the requested development incentives, the applicant shall, as part of its initial submission to the Village, submit an application for development incentive bonuses to the Village Building Department along with the payment of any applicable fees which shall be set from time to time by resolution of the Board of Trustees. The application for development incentive bonus shall include the following:

- (1) A description of the proposed amenities outlining the benefits that will accrue to the community;
 - (2) The economic value of the proposed amenities to the Village as compared with the economic value of the proposed incentives to the applicant which analysis shall include a comparison of the long term economic impact of the proposed amenities to the Village compared to the long term economic value of the incentives to the applicant. For purposes of this section long term shall be defined as a term of ten (10) years or more;
 - (3) A preliminary demonstration that there are adequate sewer, water, transportation, waste disposal and fire-protection facilities serving or proximate to the proposed development to handle the additional demands the increased density, incentive or amenity may place on such facilities or the Village beyond the demand that would otherwise occur with as-of-right development; and
 - (4) An explanation of the physical, social and/or cultural impact of the amenity upon the D-MU Zoning District.
- C. Authorization for development incentive bonuses shall be subject to approval by the Board of Trustees after a public hearing in accordance with §105-104 of this Chapter. Upon completion of the public hearing to consider the application for development incentive bonuses, the Board of Trustees shall grant or deny the application. The Board of Trustees shall determine whether the proposed amenities provide sufficient public benefit to provide the requested incentives. In the event that the Board of Trustees grants the application, it may impose such terms and conditions as it deems necessary. If the Board of Trustees determines that a suitable community benefit or amenity is not immediately feasible, or otherwise not practical, the Board of Trustees may require, in lieu thereof, or in addition thereto, a payment to the Village of a sum to be determined by the Board of Trustees. If cash is accepted in lieu of other community benefit or amenity, or in addition to a benefit deemed to be insufficient, provisions shall be made for such sum to be deposited in a trust fund to be used by the Board of Trustees for specific community benefits authorized by the Board of Trustees.
- D. The Board of Trustees may not grant incentive bonuses to permit:
- (1) Buildings with heights in excess of forty (40) feet or three and one-half (3 ½) stories except that the Board may grant incentive bonuses in excess to forty (40) feet provided such height in excess of the forty (40) is limited to: architectural or design elements or relief; mechanical rooms or areas for the storage of mechanicals such as HVAC equipment; penthouses for elevators, or stairways; skylights; chimneys and/or flues; or renewable energy equipment. No more than thirty percent (30%) of the running plate length of each wall in a pitched roof may be dormered or used as habitable space. The maximum roof pitch shall be a twelve (12) on twelve (12)

pitch. Under no circumstance may the maximum vertical portion of any portion of a pitched roof exceed ~~forty six (46) feet~~ forty-five (45) feet.

- (2) Densities in the Northern and Central Sub-Areas in excess of sixty (60) units/per acre; Densities in Southern Sub-Area in excess of forty-five (45) units/per acre.
- (3) Maximum building area coverage greater than ninety percent (90%); or
- (4) Minimum dwelling unit size less than five hundred fifty (550) square feet.

§ 105-99. Workforce or affordable housing requirement.

In exchange for any density bonuses granted pursuant to §105-98, the Village shall require not less than ten percent (10%) of all multi-family or mixed-use units in any D-MU development to be designated as workforce or affordable housing, targeted to households with incomes less than ~~one hundred percent (100%)~~ eighty percent (80%) of the area median income (AMI) for Nassau County, as defined by the United States Department of Housing and Urban Development (HUD), and with unit sales prices or rents not to exceed thirty percent (30%) of the household's annual income. In the alternative, the Board of Trustees may permit the developer to make provision of other land and the construction of the required affordable workforce housing units that are not part of the applicant's current subdivision plat or site plan but are to be provided on another site within the same local government; or make the payment of a fee in accordance with §699 of the General Municipal Law. For buildings with less than four units, the workforce or affordable housing requirements set forth in this section shall not apply. Workforce or affordable housing units shall comply with all requirements set forth by the Village Board of Trustees at the time of Site Plan approval in relation to unit occupancy, location, design, and continued affordability over time.

§ 105-100. Site plan and related approval.

All developments in the D-MU Zoning District shall be subject to site plan review in accordance with Article XXVII of this Chapter.

§ 105-101. Non-conforming buildings and uses.

Any building, structure or use existing on the effective date of this Article may be continued on the same lot although such building, structure or use does not thereafter conform to the regulations of the D-MU Zoning District. A nonconforming building, structure or use is deemed abandoned and may not be reestablished where such nonconforming building, structure or use has been discontinued for a period of six (6) months. A lawfully preexisting, nonconforming building, structure or use may not be enlarged or reconstructed. If less than fifty percent (50%) of the total square feet of a building or structure is destroyed or otherwise requires repairs and alterations due to any accidental or unintentional cause, then in that event the building may be restored and enjoy its nonconforming status, provided that such restoration or repair is completed within six (6) months and such restoration does not enlarge the preexisting nonconformity. In

the event that more than fifty percent (50%) of the total square feet of a building or structure is destroyed or otherwise requires repairs then in that event the building or structure shall be restored in conformity with this the D-MU Zoning District. Notwithstanding anything herein to the contrary, a nonconforming use which is replaced by, or converted to, a conforming use is extinguished and shall not be reestablished.

§ 105-102. Applicability. Conflicting provisions. Severability.

This Article is not intended to release an applicant from other requirements of this Chapter. If the provisions of this Article are silent on any matter, the requirements of this Chapter shall be applicable to the D-MU Zoning District. Wherever the requirements of this Article are at variance with the requirements of this Chapter, or any other lawfully adopted rule, regulation, local law or other enactment, the most restrictive or that imposing the highest standards shall govern unless a contrary intent is expressly stated. If any section, paragraph, subdivision, clause or provision of this chapter shall be adjudged illegal or invalid, such adjudication shall apply only to the section, paragraph, clause or provision so adjudged, and the section, paragraph, clause or provision so adjudged shall be severed and the remainder of this chapter shall remain valid and effective.

§ 105-103. Costs fees and expenses.

All applicants under this Article shall be required to pay the cost associated with engineering, environmental, architectural, legal and other consulting professionals retained by or on behalf of the Village which are deemed necessary by the Village. No building permit shall be issued until all expenses incurred by the Village for engineering, environmental, architectural, legal and other consulting professionals or consultation fees or other expenses incurred by the Village in connection with this Article are reimbursed to the Village by the applicant. The Village may require, at the time of the application pursuant to this Article, that the applicant deposit with the Village Clerk such amount to cover consultation fees and other expenses as shall be established from time to time by resolution of the Board of Trustees.

§ 105-104. Public Hearing. Public Notice.

A public hearing shall be required for all applications for special permits and incentive bonuses. Public notice shall be given by publication in the official village newspaper of such hearing at least ten (10) days prior to the date thereof. Before any such application may be heard by the Board of Trustees, a complete and accurate list of the names and addresses of the owners of all the lands within a radius of two hundred (200) feet of the property affected by such application as appears on the latest completed assessment roll of the Incorporated Village of Farmingdale shall be submitted simultaneously with the application. The applicant shall send, by certified mail, to each owner shown on the applicable list, no less than ten (10) days nor more than twenty (20) days before the date set for a hearing upon this application, a notice addressed to such owners signed by the applicant, generally identifying the property affected thereby and setting forth the nature of the application and/or the development incentive bonuses requested and the

date, hour and place fixed by the Board of Trustees for a hearing thereon. Before such cases may be heard by the Board of Trustees, the applicant must file with the Village Clerk, not later than five (5) days prior to the hearing date, an affidavit of the mailing of such notice as herein provided, said affidavit to be made on forms to be provided by the Board of Trustees.

§ 105-105. Effective date.

This Article shall become effective immediately as provided in the Municipal Home Rule Law upon being filed with the Secretary of State of the State of New York.
